

KLANSMEN HAVE NO RIGHT TO TAKE LAW IN THEIR OWN HANDS

Imperial Wizard Ev- ans so States in Chi- cago Friday

(By The Associated Press)
CHICAGO, Jan. 26.—Ku Klux
Klansmen have no right to take
the law into their own hands, H.
W. Evans, imperial wizard of the
organization declared today. He
also charged Governor Parker of
Louisiana with political or other
motives in instigating the Mer
Rouge investigation of the death
of W. D. Daniel and T. P. Richard.

Asked if the Klan would defend
any men who may be arrested or
indicted in connection with the
Louisiana case, Evans said:

"It would depend entirely upon
the condition of the klansman. If
he was unable to provide defense
for himself we would most cer-
tainly see that his rights as a
klansman were looked after and
that he got justice. We would
not use any effort anywhere to
prevent a man from paying the
full penalty for a crime commit-
ted."

"There is no set or circum-
stances under which the Klan
would have a right to take into
its own hands, or be responsible
in any way for the enforcement
of the law, except insofar as their
sworn duty as klansmen would
place them under the officials
charged with the enforcement of
the law," Evans said. "Every
klansman specifically takes the
following oath, which has never
been published before: 'I further
promise or swear that I will al-
ways, at all times and in all
places, help, aid and assist the
duly constituted officers of the
law in the proper performance of
their legal duties.'"

"There is nothing contained in
any oath that in any way permits,
allows or condones law viola-
tions."

"The Klan is but a portion of
our people. It is only worn
by our klansmen during the
ceremony of naturalization or in-
stitution, or, when special dispen-
sation is granted in a public pa-
rade to the grave of a klansman
or a man who has served the Klan
or the country in an upstanding
way or upon an errand of charity.
On the two latter occasions it is
not worn except that the Klan may
express, as a Klan, either its sor-
row or its sympathy and that in-
stitution might not be considered
individual expressions but for the
Klan."

"The Klan is not attempting to
build upon the personality of mer-
it but upon the foundation of prin-
ciples. The Klan is not a polit-
ical organization but if it is
built upon men instead of
principles it might become such—
hence the organization in main-
taining its secrecy prevents its
exploitation for personal profit
and, finally, it is necessary to
many sections that we protect
the identity of our members from
the persecution of non-American
alien or foreign influence which
would persecute the membership
of the Klan merely because they
were members as evidenced by the
persecution of members of the
Klan being meted out in Chicago
today, simply because they be-
lieve in our principles and have
inculcated them into the local
life."

"The enforcement of the law
belongs to the government or the
several states. We hold no right
to enforce the law either upon
bands of masked men or other
criminals. We claim and strenu-
ously endeavor to see that the
enforcement officers of the law
should have, and see that all
law violators, masked or un-
masked are brought to judgment
and neatly inflicted."

"A klansman would vote (if he
lived up to and fully complied
with the spirit of the Klan) for the
man who could best serve his
country regardless of his race,
color or political affiliation."

"We do not advocate religious
prejudice. We are an organiza-
tion of protestant Christians. We
advocate protestant Christianity
but not religious prejudice."

Asked regarding rumors con-
cerning the eligibility of others
than protestants to be klansmen
he said:

"There is no possibility of the
eligibility of membership being
changed at all within two years
and any change is contemplated
or likely to be into effect at all."

the face of requests for increases.

consin and Northern Indiana.

MEMBERS OF GERMAN OPERA COMPANY SING AS THEY REACH U. S.

Salaries Here Will Reach
One Million
Marks

(By The Associated Press)
NEW YORK, Jan. 26.—As the
President Roosevelt bringing the
108 members of the Berlin Grand
Opera company, plowed her way
thru ice choked waters to her
pier today, song birds of the com-
pany stood bareheaded on deck
singing lusty strains of joy as they
thought of the salaries of
millions of marks which soon
would be placed the starvation
wages of their homeland.

The company's full chorus of
sixty men and women intoned the
chorus from Wagner's opera
"The Master Singer" while the
principals of the company crowd-
ed radiant-faced at the rails feast-
ing their eyes on America.

"Happy?" exclaimed one of the
prima donnas, "no I am not
happy. Only a few months
ago I sang in a provincial Ger-
man opera house and received
18,000 marks a month for my
work. That was \$0 cents in your
money and I was the best paid
singer in the house. Now I will
receive the equivalent of millions
of marks a month and the terrible
struggle with want and worry will
be at an end."

Other members of the company
pointed out that the best opera
stars in Germany are paid a max-
imum of about 100,000 marks or
\$4 a month while minor singers
receive 50 cents a month. The
opera company which was said by
George Hartmann, its general di-
rector, to be the first German
company to be brought to this
country will tour the United
States opening its engagement in
Baltimore on January 31.

tions that undertake to overthrow
the separation of church and state
freedom of conscience, equality
before the law and freedom of
men to act."

MAKES REPORT ON RUHR VALLEY SITUATION

(By The Associated Press)
PARIS, Jan. 26.—In his report
on his visit of inspection in the
Ruhr valley, made to the cabinet
today, M. Le Troquer, minister of
public works, advocated the ap-
plication of a number of measures,
the principal one concerning as-
surance of an adequate continuous
supply of coke and coal to the
area.

Other measures which he rec-
ommended dealt with the opera-
tions of the technical commission
maintenance of order, and the up-
keep of proper transportation
facilities in the occupied region.

General Weygand, Marshal
Foch's chief of staff, having fin-
ished his task in the Ruhr, will
return to Paris tomorrow morning.

RAILWAY WORKERS TEAR RAILWAY TRACKS

(By The Associated Press)
London, Jan. 26.—(By The As-
sociated Press.)—The railway
workers in Dusseldorf this after-
noon tore up the railway lines,
isolating Ruhr main-line traffic,
says a Reuter despatch from
Dusseldorf. The French organized
convoy of motor lorries, some
400 of which made their way thru
Xenx with fuel and supplies
for the troops. The route thru
Neuss which is in the Belgian
zone, was taken in order to avoid
having to cross the British area.

MOBS STORMED NEWSPAPER OFFICE

Cologne, Jan. 26.—In conse-
quence of rumors that a Rhine-
land republic had been proclaimed
at Cologne, a crowd last night
stormed the office of the news-
paper Rheinlander which is con-
trolled by Dr. H. A. Dorten, the
separatist leader. The crowds
smashed windows and threw fur-
niture into the streets.
This morning another attack
was made and further destruction
done.

DIRECTOR JENKINS TAKES ISSUE WITH COOK COUNTY JUDGE

Says Reports Greatly Exaggerated by Judge Jarecki

(By The Associated Press)
SPRINGFIELD, Ill., Jan. 26.—
Overcrowding in state institu-
tions, described as "appalling,"
by County Judge Jarecki in Chi-
cago today, has been greatly re-
lieved by transfers of patients to
the state hospitals at Alton and
Dixon, C. H. Jenkins, director of
the department of welfare said.

Commenting on Judge Jarecki's
reported statement that some of
the institutions were "unfit for
human habitation," Director Jen-
kins said, conditions had been
greatly exaggerated.

"I can hardly believe that Judge
Jarecki has been correctly quoted,"
said Judge Jenkins, "when such
terms as 'horrible,' 'appalling' and
'unfit for human habitation' ap-
peared in his reported state-
ment."

"No such condition in any of
the institutions exists as his
judgeship 'deplores' beyond the
fact that the places are admittedly
overcrowded. Even this condition,
which is not new to the informed
public has been vastly improved in
the last two years despite steady
increases in the population of
state wards."

REVOLUTIONARY GUNS WILL FIRE SALUTE

(By The Associated Press)
SAVANNAH, Ga., Jan. 26.—
While salutes fired by modern ar-
tillery will greet the transport St.
Mihel as it steams up the Savan-
nah river on February 7, bringing
the last American troops home
from the Rhine, the greatest interest
will lie in the salute fired by a
couple of guns of revolutionary
type.

PRESIDENT WILL GO TO FLORIDA

(By The Associated Press)
WASHINGTON, Jan. 26.—An-
nouncement that the president
and Mrs. Harding expect to go
to Florida after congress adjourns
was made today at the white
house.

that because of the recent se-
rious illness of Mrs. Harding and
her attack of the grippe which

with the strain of constant atten-
tion to official business for months

No Chance to Settle Germany's Trouble

(By The Associated Press)
PARIS, Jan. 26.—The possibil-
ity of the reparation commission
becoming a medium for compro-
mise in the present difficulties be-
tween France and Germany virtu-
ally ended this afternoon so far
as the immediate future is con-
cerned.

By deciding it would be futile
to discuss the question of a mor-
atorium with conditions as they
are in the Ruhr, and declaring
Germany in general default of all
her reparation obligations, the com-
mission placed itself outside of the
problem for some time to come.
The decision has the effect of
providing for future defaults by
Germany in reparation deliveries,
either in cash or kind, and saves
the commission the trouble of de-
claring a new default every time
one occurs.

The memorandum prepared by
the American unofficial representa-
tive Roland W. Boyden, about
which there has been so much
discussion now becomes in effect
buried, since it was only to see the
light of day when and if the
French moratorium plan came up
for consideration.

The likelihood of the Boyden
memorandum ever being seriously
discussed by the commission now

GOVERNMENT OWES CHIPPEWA INDIANS BIG SUM OF MONEY

According to Secretary Fall
It Amounts to
\$1,490,195.58

(By The Associated Press)
WASHINGTON, Jan. 26.—The
government owes the Chippewa
Indians of Minnesota \$1,490,-
195.58 to compensate them for
land and timber under the act
passed in 1908 creating the Min-
nesota forest, according to a re-
port submitted to Secretary Fall
of the interior department by
Charles H. Burke, commissioner
of Indian affairs which was made
public today.

The Indian commissioner quoted
a report of the commission ap-
pointed under the act to make es-
timates appraisals and findings
looking toward compensation of
the Chippewa to the effect that
"equitable considerations," were
due the Indians for certain timber
rights not included in the other
figures and for interest at the
rate of five percent a year on the
amount due, which has been lost
to the Indians thru the delay of
the government in carrying out
the terms of the act.

The commission estimates the
value of the additional timber
at \$1,060,887.70 and of the lost
interest at \$402,755.84.

FRENCH INVASION AFFECTS AMERICA

(By The Associated Press)
CHICAGO, Jan. 26.—The French
invasion of the Ruhr is something
of direct interest to American tax-
payers, H. Archibald Harris, coun-
sellor on accounting and taxation
for the Illinois Bankers' associa-
tion declared tonight at the close
of the association's midwinter
conference.

Because France owes America
about three billion dollars, he
declared that if France collects its
reparations from Germany with-
out entirely prostrating Germany,
Americans will see their own tax
budget decrease. He asserted that
Germany should pay and could
pay as France paid in 1780 and
added that cancellation of debts
had not prevented wars in the
past.

Turning to the matter of credits
he told the bankers not to restrict
credit unnecessarily but to investi-
gate carefully before granting
credit. He predicted passage of a
constitutional amendment doing
away with tax free securities and
expressed the opinion that excess
profits taxes will return. There
will be no tax on undistributed
profits he said but expressed the
belief that a tax on stock divi-
dends would become a reality.

WILL INCREASE INTER- EST ON POSTAL SAVINGS

Washington, Jan. 26.—The in-
terest rate which the government
pays on deposits in its postal sav-
ings bank would be increased
from two per cent to three per
cent under a bill reported today
to the house by the postoffice
committee. Also the maximum
amount which any individual de-
positor could have to his credit
would be increased from the present
\$2,500 to \$3,000.

SOVIET ENVOY EXTRAORDINARY TO VISIT JAPAN

Was Denied Admis- sion to Hong Kong and Macao

(By The Associated Press)
SHANGHAI, Jan. 26.—A. A.
Joffe, of Moscow, soviet envoy ex-
traordinary and plenipotentiary
to China, who has been in con-
ference with Sun Yat Sen leader
of the South China faction has
been denied admission to Hong
Kong and Macao, respectively
British and Portuguese colonies.
He announced he would sail for
Japan to which country he declar-
ed he had been invited.

The Russian envoy said he in-
tended to visit one of the num-
erous Japanese Hot Springs with
the intention of recuperating his
health.

A joint statement was issued
tonight by Joffe and Sun Yat-Sen
in which it was stated that the
conference had revealed they en-
tertained identical views regard-
ing Chinese-Russian relations.

The statement specified how-
ever, that Sun Yat-Sen contends
that the communistic order of the
system cannot be introduced into
China because the conditions there
do not exist for the successful
establishment of communism and
sovietism.

This view it was stated was
shared by Joffe who asserts that
"China's paramount problem is to
achieve reunion and national in-
dependence." And in this par-
ticular he assured Sun Yat-Sen
that China has the sympathy of
Russia and can count on Russia's
support.

X-RAY OF ANCIENT KING IS PLANNED

(By The Associated Press)
LUXOR, Egypt, Jan. 26.—
Pharaoh Tutankhamun the might-
iest king in the world 3,000 years
ago, whose tomb recently was dis-
covered in Egypt is to be X-rayed
if his mummy still lies in the
tomb.

When the archaeologists now at
work on the tomb open the alab-
aster coffin, take off the thick
cover of gold and carry the
shrouded form into the sunlight
it will be photographed from
every angle. The hundreds of
yards of bandage will be unwound
and the first time in history a
film of the weird sight will be
made. It has been decided be-
fore the bandages are removed as
it is expected that this will throw
an important light on the ritual
of embalming as practiced by the
ancients.

SUSPECT IN BANK ROBBERY ARRESTED AT SAN FRANCISCO

Thought to be Implicated in
Scotts, Michigan,
Robbery

(By The Associated Press)
SAN FRANCISCO, Calif., Jan.
26.—A man giving the name of
Furley Hoagland was arrested to-
day by department of justice op-
eratives on suspicion of being one
of the bandits who robbed a bank
and killed two officers at Stocks,
Mich., April 21, 1921. He is said
by the department of justice
agents to have admitted partici-
pation in the robbery.

Hoagland also is said to be
wanted for attempted bank rob-
bery at Augusta, Mich.

Hoagland's wife was held for
questioning. Hoagland is being
held without a formal charge un-
til the authorities can determine
whether he was connected with
the Denver mint robbery. Upon
his arrest Hoagland is said to
have exclaimed:

"I do not know anything about
that Denver job."

The Scotts bank robbery accord-
ing to word received here was
committed by Hoagland, Joseph
O'Neill and Leonard Greenberger.
Greenberger was captured at Mar-
shall, Michigan, and made a con-
fession it is said involving Hoag-
land and O'Neill in the Scotts
robbery. O'Neill is still at lib-
erty.

The federal authorities became
identified with the Scotts bank
case because national funds were
among the loot. The bandits ob-
tained \$2,800.

Hoagland denied all criminal
knowledge of the shooting of the
peace officer and of the Denver
mint robbery the officers say.

He announced that he would be
willing to plead guilty to a federal
court but would put up a defense
if sent back to trial before a Mich-
igan state court.

Hoagland said he brought his
wife out here a year ago and placed
her in a sanitarium at Duns-
muir, Calif., during a period of
illness. He admits to having been
in trouble with the authorities
at Grand Rapids, and Detroit as
well as Scotts and Augusta, the
authorities said.

B. M. McKoin, former mayor of
Mer Rouge, expects to leave with-
in a few days for Baltimore to
resume his studies at Johns Hop-
kins University, it was learned

Dr. McKoin was arrested in
Baltimore on instructions from
Governor Parker on a charge of
murder in connection with the
kidnapping and slaying of W. D.
Daniel and Thomas F. Richard,
Mer Rouge citizens, on August
24 by a hooded band. Under an
agreement between state officials
of Louisiana and Maryland he
was permitted to return to
Morehouse accompanied by a
deputy sheriff. When he reached
Bastrop he was placed under a
bond of \$5,000. Dr. McKoin was
in communication with Attorney
General Coope today and it was
said that he was told that the
state would have no objection to
his returning to Baltimore tem-
porarily.

cific Coast timber districts when

plans for conserving and devel-
oping the national timber supply.

MARTIAL LAW IS PRACTICALLY IN EFFECT IN RUHR

French Continue to Make Arrests for Rioting

(By The Associated Press)
DUESSELDORF, Jan. 26.—
What practically amounts to mar-
tial law has been declared in the
occupied area. All cafes, hotels,
theaters and cabarets were closed
at 10 o'clock tonight. German
timor. The French tonight were
continuing to make arrests in con-
nection with Thursday's rioting.
About 20 nationalist leaders were
imprisoned during the evening.

More arrests are likely tomor-
row if the Germans carry out their
decision to refuse to obey the
French. This decision was reach-
ed today at a meeting of all burgo-
masters, chiefs of police, promi-
nent state officials and the direc-
tors of the reichsbank in the
Rhine province. The meeting was
presided over by Dr. Gruetzer,
president of the province of Rhen-
ish-Prussia, who later was taken
into custody but afterward re-
leased after a conference with
General Simon, who informed him
that he would be re-arrested if he
remained recalcitrant.

Quiet prevailed through the
Ruhr today. There was no recur-
rence of Thursday's clashes, but
the temper of the population was
more openly defiant in the pre-
valent depressing atmosphere of
hate. New forces of troops came
into Dusseldorf today to meet an
eventuality that may arise here
in any part of the Ruhr. The
streets of Dusseldorf are under
military guard due to the absence
of the German police. The miners
thruout the Ruhr continue gradu-
ally to throw down their picks
and workmen in other industries
also are leaving their jobs. Smoke-
less chimneys are now everywhere
in evidence thruout the once pros-
perous valley of the Ruhr.
Locomotives, cold and silent are
stalled in shops or at stations,
many pit heads from which for-
merly thousands of tons of coal
daily was handled, show no signs
of activity.

Next Move in Battle
The next move in this great
battle will come from Paris prob-
ably early in February after the
Germans have failed to meet their
January 31 payment of 500,000,-
000 gold marks. Germany must
submit to the ultimatum which
then will be sent them or further
military operations, the nature of
which have not been announced
will begin.

The economic side of the occu-
pation of the Ruhr apparently
has proved a failure and the
situation will improve with the
increasing of difficulties due to
the spreading of strikes. It is un-
derstood that France has decided
upon a further use of force to
bring Germany to terms. It is
known that some of the engineers
who are repairing the military op-
eration project is of such mag-
nitude that the mobilization of
several of the French classes will
be required for its execution. The
French here are hopeful that a
further show of force on the part
of France will cause the Germans
to give up their present plan of
non-cooperation and therefore
make it unnecessary to enforce
the reparations commission's ul-
timatum; but they are ready to go
thru with their plans if the Ger-
man government remains stub-
born. The visit to the Ruhr of
General Weygand is said to have
been with the purpose of settling
the final details of the proposed
opera tions by the French troops.

The mission is marking time
until the reparation commission
renders its decision at the end of
the month.

Two additional French army
corps are arriving in the Ruhr and
it is reported that the military op-
eration project is of such mag-
nitude that the mobilization of
several of the French classes will
be required for its execution. The
French here are hopeful that a
further show of force on the part
of France will cause the Germans
to give up their present plan of
non-cooperation and therefore
make it unnecessary to enforce
the reparations commission's ul-
timatum; but they are ready to go
thru with their plans if the Ger-
man government remains stub-
born. The visit to the Ruhr of
General Weygand is said to have
been with the purpose of settling
the final details of the proposed
opera tions by the French troops.

A THOUGHT
All souls are mine; as the soul of the father, so also the soul of the son is mine.—Ezekiel 18:4.
Let us make ourselves watchers and guardians of the order of the world. Let us pledge ourselves to service. Let us set ourselves with all our minds and all our hearts to the perfecting and working out of the methods of democracy, and the ending forever of the kings and emperors and the bands of adventurers, the traders and forestallers who have betrayed mankind into this morass of hate and blood, in which we flounder still.—H. G. Wells.

YOUR MOODS
(NEA)
How often do your moods change? And what makes them change? The liver and digestive system have a lot to do with it. Many a day's happiness is ruined by a morsel of food.
The chief reason people talk so much about the weather is, not because weather helps or interferes with their plans, but because it is so powerful at governing their moods.
Difficult to explain how the weather can affect the mind or "spirits"—unless you concede, with Coue, that we are slaves of our imaginations.
Under a certain set of circumstances, you find yourself happy and care-free, provided the weather is bright and sunny. Under identical the same circumstances, when it's raining or the sky leaden and overcast, most of us are gloomy, languid and make mountains out of molehills.
Writers of stage melodrama follow the psychology. Trouble, sadness and forebodings are unfolded before a background of mournful winds and violently swirling rain.
The last act, the happy ending, usually takes place with the sun shining and everybody full of pep and joy except the villain.
Our endocrine glands—particularly the thyroid and adrenals—also have powerful control over our emotions or moods. These little bodies, by excessive or deficient secretions of chemicals, can make the glands' unfortunate owner melancholy almost to the point of insanity, terrified into near-hysteria, or as exhilarated as if the glands were secreting essence of John Barleycorn.
After all, what a wonderful thing it is, that our moods change so abruptly and completely! A happy life is a life of contrasts, with joy and displeasure balancing or off-setting each other.
Take a youngster with an appetite for candy that seemingly cannot be satisfied. Put him to work in a candy store. Come back in a year and you'll find him more interested in bread and butter than in candy. With an unlimited supply of sweets before him, he has no contrast such as he had when sweets were a luxury. The contrast absent, he loses interest.
Joy ceases to be joy when it is a constant diet. Occasional troubles and disappointments make joy stand out as a desirable contrast. So we appreciate happiness when we have it.
Too much happiness is a poison. In downcast moments we sit back, take stock of ourselves, analyze our condition, make new resolutions—in general, maintain our perspective on life.
If we didn't fall off the horse now and then, we'd soon become so confident and arrogant about our riding ability that it'd be next to impossible for any one to live with us.
To understand your moods and to keep them from drowning you, remember we are slaves to the Law of Contrasts, with a change always inevitable later.

BERTON BRALEY'S DAILY POEM
INSTABILITY
By Berton Braley
THEY may catch a roving comet by its tail
And reduce it to the hauling of a cart,
They may chain the roaring torrent and the gale,
For the scientists are growing very smart.
They will doubtless train an antelope to drive
In the harness of a buggy or a shay,
But there isn't an inventor now alive
Who has found domestic servants that will stay!
OH, the flea is rather flighty in his style,
And the butterfly is restless, so to speak,
But the servant has them beaten by a mile
With an errand instability unique.
All the "wanderlust" the poet sings about
Sends the clan—miscalled "domestics"—on their way,
They are born of gypsy blood beyond a doubt,
For you simply cannot find one who will stay.
WE have given them the guest room for their own,
We have let them off each afternoon and night,
Though the burden of their wages makes us groan,
We have paid them with a manner all delight;
But the moment that we grieve has to come
When they don their travel kit and draw their pay
And we hear the fearful words: "I'm leavin', mum."
For you cannot get a servant who will stay!
OH, you master minds of science, heed our cry,
Would you mitigate the woes of mortal clay?
Put your brains on something useful, won't you try
To invent a type of servant who will stay?

MR. WILSON MAKES STATEMENT
Editor Journal:
The Journal of Jan. 26 was in error in stating that I had paid \$200 damages to A. D. Arnold for horses killed by my auto. I wish to say that I have not paid the \$200, and further do not intend to unless higher courts say that I owe this amount.
The claim in my opinion is unjust, and while the amount may seem small for anyone to be fighting over in the courts I feel that it is my duty to the public as well as to myself to fight this case to the last ditch, for there is a principle involved that should interest every citizen.
It is time for us to know whether or not we have any protection on the highways. If a farmer or stock man riding a horse and followed by a dog, has a right to chase loose horses out across the highway from a cornfield directly in front of and into a passing automobile without any notice or warning of any kind, and then make the car owner pay for the horses that killed themselves and damaged the auto to the extent of several hundred dollars—it is time to find it out. If they haven't such a right it is also time to find it out and get some established court ruling that will be a warning to others who take loose horses on the highway, that they may protect not only the stock but the lives and the property of the public who build and maintain the hard roads. This is simply in accord with the new law of the state and I believe that the general public will bear me out in my contentions and that right will eventually win.

ANNA NUROVA RUSSIAN DANCER.

Anna Nurova, the shapely Russian dancer whose Slavic beauty illuminates many of the swift moving episodes in the second annual revue of the Greenwich Village Follies, the gay and antic spectacle which comes to the Grand theatre Monday, January 29, is a graduate of the Valiska gymnasium in Moscow. Because of his political activities her father was forced to leave Russia three years before the Czar was toppled from his tottering throne. He was a confidant of the Czar's, but the secret police suspected him of revolutionary tendencies, and it was only thru the aid of a friend in the French embassy who supplied him with passports that he escaped his native country with his life.

Anna had studied dancing at the Valiska gymnasium, and shortly after arrived in this country with Pavlowa and her Russian ballet. The ballet master with the Pavlowa company was Antonio Nello, and they formed the dancing team of Nello and Nurova. So barbarous is their whirlwind Russian dance in the Follies, you would think they had wandered in off the steppes.

Nello and Nurova are artists to their fingertips, and they have a studio in Sheridan Square in Greenwich Village where they teach dancing when the "Follies" is in New York.

RAPID INCREASE in weight and number of vehicles calls for a margin of safety in pavements laid today to insure the pavements standing up under such traffic as we may expect ten, twenty or thirty years hence. Only by providing such a margin of safety can taxpayers be protected against the necessity of financing early reconstruction and meeting costly maintenance charges in the meantime.

WHITE HALL WINS OVERTIME GAME 14-13

Defeated Jacksonville in One of Most Exciting Games of Season—Many Fouls Called on Jacksonville.

White Hall, Jan. 26.—In one of the most exciting games ever seen on the local floor White Hall high defeated Jacksonville high in an overtime game tonight by a score of 14 to 13.

The game was marked by many fouls in which Jacksonville was the greater sufferer. In fact it was the work of Goode from the foul line that won for White Hall. In the third period alone seven fouls were called on Jacksonville and Goode negotiated four of them. This put White Hall in the lead for the first time.

At the end of the first half Jacksonville was in the lead 8 to 3. In the third quarter England was sent in at center. White Hall staged a strong comeback in this period. However, with the score standing 11 to 10 against them, Jacksonville made a free throw in the fourth quarter making the count 11 to 11 at the end of the final period.

In a fast and furious five minute overtime period White Hall scored a field basket and free throw while Jacksonville got two free throws.

The game was one of the best ever seen on the White Hall floor and it was a great battle from start to finish. Close guarding on the part of both teams caused the low score. The work of Zell and Hopper of Jacksonville and Smith and Hansberger for White Hall was brilliant throughout.

Goode starred on the offense for the winners getting two baskets and eight free throws for 12 on White Hall's points. Hunter, Deatherage and Putnam did the scoring for Jacksonville.

This made White Hall's thirteenth straight win and her second defeat of Jacksonville. An overflow crowd witnessed the game. The Knights of Pythias band furnished music for the game. White Hall plays Winchester high here tonight. Both the first and second teams play.

ROUTT HIGH AGAIN WINS FROM I. S. D. 32-15

Local Teams Play Before Large Crowd in Liberty Hall Friday Night—Game Closely Contested in First Half.

Playing before one of the largest crowds of the season Routt high was again victor over the Illinois School for the Deaf basketball five in Liberty Hall Friday evening the final score being 32 to 15.

The score however, does not indicate how hard the players fought for victory. The game was rather slow during the first half but as it progressed it speeded up and the second half was fast and furious.

At the beginning of the game the I. S. D. boys jumped into the lead and held until just a few minutes before the close of the second period when the Routt boys got their eye on the basket. They tied the score and then took the lead. At the half way period the score was 15 to 9 in favor of Routt.

In the second half I. S. D. went up in the air and displayed poor team work, compared with their work in the first half. The men seemed to be unable to play together and there was lots of individual shooting, the men taking long shots at the basket instead of trying to work the ball in for close shots. But few of the long shots counted.

While I. S. D.'s team work deteriorated that of Routt got better and some excellent team work was shown and with accuracy for the baskets Routt soon rolled up a comfortable lead that could not be overcome. Be it said that the I. S. D. never gave up but were fighting hard at the finish but their efforts went for naught as they seemed to have lost the range of the basket entirely.

For Routt, Gebert, Trahey, Murphy and Norris did excellent work on offense while Doyle, Mallen and Gebert did fine work on defense. Mannen, Massinkoff, Taylor and Rose did the scoring for I. S. D. The I. S. D. men followed the ball well but in the second half the guards led Gebert and Trahey slip in behind them several times for counters. The score:

For the White Stars Reid and Kelly played a good game. The Get Aways are ready to meet independent teams either here or in other cities. The score:

SHREVEPORT GOLFER LEADS TEXAS TOURNEY

SAN ANTONIO, Texas, Jan. 26 Bill Heilhorn of Shreveport, La. with 137 strokes for the first 36 holes of the Texas open tourney, led today in one of the fastest fields of golfers ever assembled for an open tournament.

Heilhorn's excellent golf was witnessed by approximately 2,000 spectators. Thruout the match his long drives and perfect putts brought cheers and applause. The triple tie for second honors after the first day of play lies between Joe Kirkwood, Australian champion and expert trick shot, Joe Lally, San Antonio Country Club pro and Jack Burke of St. Paul. All finished in 142 strokes.

Walter Hagen, British open champion and Jim Barnes, former national open king were tied with 143. This was the second time that Hagen had been over the course and his afternoon round brought in an even 70.

NORMAL-ILLINOIS THIS AFTERNOON

Fast Teachers Quintet Meets Blue And White in David Prince Gymnasium—Play Will Start at 4 O'clock.

At 4 o'clock this afternoon Illinois College and Normal University will meet on the basketball floor in the first of their two annual games. Last year Illinois trounced Normal on the Normal floor and the Teachers reciprocated by taking the game played here.

Chagnon and Harrison, guards, will give the Illinois players plenty of trouble in getting past them for field goals. Chagnon played a clever game at end on the Normal football team and he is just as clever when he is handling the basketball. These two men made life miserable for the Bradley forwards in the Normal-Bradley game last Tuesday night.

Bolin at center is a long shot artist. In the Bradley game he sank several beautiful baskets from midfloor. He and Captain Mellon of the Illinois team should have an interesting battle this afternoon.

Butow, is a heavy scoring forward for Normal this year. He was good last year but is going much better this year. On the Bradley floor he came through with nine field goals. Plenty for one man in one game against a team like Bradley.

Elder, Dale, Goebel, Henry and Fenoglio may get into the game at forward for Illinois. Hiatt's little toe, dislocated in the St. Louis game, is still bothering him too much to permit playing on it. Dale has not been hitting the basket consistently in recent games but is just about due to break loose as he did in the early games.

Jack Roberts, Butler, Struck, Underwood, Hoskins and Gard will bear the brunt of the defensive work with odds seeming to favor Roberts and either Underwood or Butler to start the game. Adams, University of Chicago, from Bloomington, will officiate.

RECOMMENDS FORD OFFER BE ACCEPTED

(By The Associated Press)

WASHINGTON, Jan. 26.—Recommendation of acceptance of Henry Ford's offer for Muscle Shoals made today by Bernard M. Baruch, war time chairman of the war industries board in a letter to Gray Silver, Washington representative of the farm bureau federation brought forth a formal statement from Senator Norris, Republican, Nebraska one of the senate group opposing acceptance of the Ford offer. At the same time there was made public a statement by Mr. Silver which contended that acceptance of the Ford offer would make possible a reduction by three fourths in the price of nitrogen used as fertilizer.

Senator Norris attacked the statement of Mr. Silver that Congress by approving acceptance of the Ford offer could reduce the price of such nitrogen saying:

"Mr. Silver is trying to deceive the American farmer by projecting into the Ford offer something that is not there. The Ford offer makes no such guaranty and offers no such promise and Mr. Silver knows that the implication he is trying to draw from Mr. Ford's offer is absolutely untrue."

The senator further declared the American Farm Bureau Federation bolsters up his misrepresentation by quoting from the report of an engineer employed by Mr. Bernard to investigate the Muscle Shoals proposition and after quoting the portion of the engineers report dealing with the liability of Mr. Ford said:

"Those of us who have opposed the acceptance of Mr. Ford's offer in the past have often been severely criticized and denounced because we said Ford was 'not personally liable except to the extent that he agreed to form a corporation with ten million dollars capital.' Now comes Mr. Silver himself and from his own evidence of his own engineer it is admitted that Ford has no personal liability."

MUST GIVE UP KLAN OR MOVE OUT—EDICT

(By The Associated Press)

NEW YORK, Jan. 26.—A warning to members of the Ku Klux Klan "that they must give up their allegiance to the 'invisible empire' or get out of Brooklyn, was issued today by District Attorney Dodd of King's county and Magistrate Dale.

They at first were held in \$1,500 bail for further examination—seven on charges of possessing blackjacks and one on a charge of having a bottle of whiskey in the automobile in which all were arrested. The first persons rounded up by the police since Mayor Hylan's order to drive the Klan from the city gave these names in court:

Alfred C. Clarke, John P. Collins, a chauffeur; Ellsworth B. Moore, an assistant manager; William D. M. Simmons, advertising manager of a large typewriter manufacturing concern; John M. Gilmore, a photographer; Thomas Mulford, a salesman; Charles T. Mulford, a bank clerk; and Robert Fischer, 19, claiming to be a student at Pratt Institute.

Six of the prisoners, Clarke, Collins, Simmons, Gilmore, Morse and Mulford were freed tonight by Magistrate Ellperin who accepted bail bonds of \$1,500 each.

GOOD ROADS TALK AT ROTARY LUNCHEON

Harold Welch Gave Facts About State Paving Progress—What Gives a City Name of "Best."

At the Rotary luncheon Friday noon at the Pacific hotel, Harold Welch, secretary of the Chamber of Commerce, made an informal talk on the Illinois good roads system, laying special stress upon what good roads mean to a city.

W. L. Kaiser, principal of the high school, was introduced as a new member of the club and a brief explanation of the meaning and purposes of Rotarianism was given by Dr. A. H. Doller.

Announcement was made of the "On to Danville" committee, which includes Dr. H. A. Chapin, A. R. Taylor and Dr. C. M. Hopper. This committee will have charge of the arrangements for Jacksonville representation at the state convention to be held in Danville in March.

Mr. Welch quoted figures recently issued by the state highway department showing that in the past two years the state has built 1137 miles of road pavement has graded 345 miles and built 272 bridges. The year of 1922 broke all records for road building. At the peak of construction as high as 41 miles of standard 18 foot Portland cement concrete pavement was being constructed each week.

Maps Show Progress

Maps which Mr. Welch had marked were distributed showing the roads in the state which have been constructed. Mr. Welch said that if a railroad or trolley line had been built from Jacksonville to the east almost to Danville, as has been the case with the hard road, that the people would be enthusiastic about the new business thus created. There are even greater possibilities from the hard roads. The speaker told of what is done in some other cities, where citizens make it their business to accord special courtesies to all automobile travelers. Various ways were suggested for capitalizing hard road benefits.

It was a practical talk and Mr. Welch was followed by T. M. Tomlinson, who told of some of his experiences with auto tourists.

Mr. Welch at the conclusion of his address quoted the following paragraphs from a Kiwanis club publication, which he said offered food for reflection:

"What Makes a City Best? And now I would like to say a few words about our own town. I recently read an article by Will Irwin in the Saturday Evening Post, in which he told interestingly of a trip in a Ford from Auburn, N. Y., to Denver, Colo. He spoke of the 'best' small towns of the middle west and particularly of Painesville, Ohio, and Jacksonville, Ill.

"I have wondered since reading that article just what is necessary to make a stranger to say it is a 'best town.' Is it the streets, the people, the stores, the hotels, the newspapers, the banks, the residences, or is it the 'teamwork' of all together?"

G. A. Dunlap, member of the county board, was a guest of the day. Announcement was made that the next meeting of the club will be held Friday, Feb. 2, at State street church.

CIRCUS MAN GETS SURPRISE OF LIFE

Declares Tanlac Not Only Ended Stomach Trouble But Added 20 Pounds to His Weight.

"Running into something new and different is part of the circus business, but last year the thing that surprised and pleased me most was when I took Tanlac and gained 20 pounds," declared Earl Ashley, concessionaire with Sol's Bros. Circus, who resides in Metropolis, Ill.

"I was in pretty bad shape, not exactly what you would call sick, but all run-down and just able to look after business. Stomach trouble and indigestion was my main bother, and although we had the best of food I had very little appetite and hardly a thing would agree with me. Sourness, pains and heartburn struck me every time I ate, my nerves were badly unstrung, I couldn't sleep well, and kept losing weight.

"We came to a town in Indiana one day and I saw a lot of Tanlac advertisements, so I decided to try it. Well, sir, you can just ask the chef what kind of appetite I have. I never have a trace of indigestion, and sleep well, I can sleep like one of those well-conditioned acrobats, and can do the biggest day's work that comes. I'll always pass along the good word for Tanlac. It's a headliner."

"Tanalac is for sale by all good druggists. Over 35-million bottles sold. (adv.)

Morgan County The Illinois Country Spain

The territory of Morgan county, centuries ago occupied by Mound Builders who gave way to the Indians, has been claimed or held in turn by Spain, France, England and the United States. The claim of Spain was based upon the discoveries of Columbus and the early Spanish explorers and greatly strengthened by the explorations of De Soto in 1541 when he approached near to the Illinois country. Some of his party did not come within the limits of the present state of Illinois.

France competed without delay for the New World and within seven years after the discovery of the continent, the fisheries of Newfoundland were known to the hardy sailors of France. In 1608 Champlain came to the St. Lawrence Valley prepared to plant a colony and laid the foundations for New France. Soon after French colonies were planted along the St. Lawrence, the French traders and missionaries ventured westward. French explorers traversed the Great Lakes and from Indians whom they met learned of the Great River which flowed to the south.

Joliet and Marquette. In 1672, the governor of New France, determined to find the Great River, selected as his agent of discovery Louis Joliet, a courageous and skillful explorer who had just returned from the Lake Superior region. Joliet was joined by Father Jacques Marquette and in 1673 the two men canoed from the Great Lakes thru the Wisconsin river into the Mississippi river and down it to near the mouth of the Arkansas river. The return journey was made by way of the Illinois river. In September 1673 they were back at Green Bay, after paddling their canoe over an uncharted route, without map or guide, over two thousand five hundred miles and had added to the geography of the world a fairly good map of much of the course of the Mississippi river.

LaSalle and Tonty. The great man who next appeared upon the scene was La Salle who under the patronage of the King of France and aided by his faithful Tonty, the man with the iron hand, attempted to explore and colonize the Mississippi Valley for fur trading purposes. In December 1679, La Salle entered the Kankakee river and in January 1680 reached Lake Peoria, and near it erected Fort Crevecoeur. He returned to Canada, but was back on the Illinois river late in 1680 and explored it to its mouth. Early in 1682, La Salle and Tonty dropped down the Mississippi river and discovered its mouth and in December of that year began the erection on Starved Rock, near the present Ottawa, of Fort St. Louis of the Rock. La Salle in 1683 returned to Europe, leaving Tonty in command at Starved Rock. La Salle after conducting an exploring expedition to the coast of Texas and spending two years there started overland for Canada and was assassinated in 1687 by one of his party.

French Settlements. Tonty established a number of French colonies, missionaries and traders about his Fort St. Louis and around it gathered Indians of several tribes. Immigration from Canada had set in. About the year 1700, the Indians about Fort St. Louis, descended the waters and located in the American Bottom. The French missionaries and traders followed them and made the first permanent settlements in the Mississippi valley at Kaskaskia and Cahokia.

The story of the rise and fall of the French settlements in the American Bottoms is a most interesting chapter in American history. At the close of the French and Indian war, the French villages were enjoying their greatest prosperity and had a population of three or four thousand whites and a number of Indians and negroes. The French also had a trading post at Peoria almost from the time that La Salle arrived there and they also founded St. Louis in 1763 and it soon became the trading center for the settled portions of Illinois.

England. The Treaty of Paris ratified in 1763 after the close of the French and Indian war sounded the death knell to French hopes and ambitions in North America. France gave up all her territory in America east of the Mississippi river. New Orleans excepted to the British and all the rest to Spain. After the peace of 1763 the English colonists along the Atlantic broke over the mountains into the Mississippi Valley.

In 1765 the British took possession of the Illinois country and governed it after a fashion until the outbreak of the Revolutionary war when the British commander and all his troops proceeded to Detroit, leaving the defense of the Illinois country to local militia and this was the situation when George Rogers Clark approached Kaskaskia in July, 1778.

Clark's Conquest. George Rogers Clark in 1776 had cast his lot with the forest communities of Kentucky. In 1777, Clark fired by reports from the Illinois country, determined

MRS. M. R. FITCH'S DEATH CAME FRIDAY

End Followed Long Period of Illness—Funeral to be Held Monday.

Mrs. Lulu Barr Fitch, widow of M. R. Fitch, whose death several years ago grieved many friends in the community, followed him in death shortly after 1 o'clock Friday afternoon at Passavant hospital, after a long illness culminating in several weeks hospital treatment. Only a few days ago it was hoped she might recover, but the turn came quickly for the worse.

Mrs. Fitch was the youngest daughter of Alva Y. Barr and Mary Crawley Barr, being born south of Jacksonville August 17, 1869. She was married Oct. 17, 1895 to Maurice R. Fitch, coming to the city to make their home. She was a woman who took much pride and found much happiness in her home. She was a member of Central Christian church.

She is survived by two children, Miss Alleen and Eugene Fitch, and by the following brothers and sisters: Mrs. J. H. Reeder, Wichita, Kansas; Mrs. A. P. Craig, Parsons, Kansas; Mrs. E. C. Green, Gary, Nebraska; Mrs. J. M. Green, Whittier, Calif.; Misses Effie and Clara Barr and W. W. Barr, of South Jacksonville. One sister, Mrs. Laura Simonds, preceded her in death.

The body was taken to the Williamson funeral parlors, and arrangements have been made for services at the residence, 721 West College avenue, at 10 o'clock Monday morning, with Rev. M. L. Pontius of Central Christian church officiating. Interment will be in Diamond Grove.

Market Report

By The
Associated
Press

ABILITY TO PAY
AFFECTS MARKET

CHICAGO, Jan. 26.—To a large
extent the course of the wheat
market today reflected develop-
ments touching Germany's ability
to obtain funds for the importa-
tion of foodstuffs. Prices were
weak most of the time but were
rallying at the last. The close
was unsettled at 4c net decline to
a like advance, with May \$1.17½
to \$1.17½ and July \$1.11½ to
\$1.11½. Corn gained 1 to 1c, oats
finished a shade off to 1c up and
provisions unchanged to 1c low-
er. Downturn in the price of
wheat began at the opening, with
sellers taking advantage of a
statement from Secretary Hoover
suggesting that French occupa-
tion of the Ruhr was likely to
diminish the purchasing power of
Germany and to bring about car-
tels of wheat exports from the
United States.

Rainy weather in the domestic
winter wheat belt especially Kan-
sas and Oklahoma tended further
to make values decline and so did
word of heavy exports from com-
peting countries indicating that
world shipments this week would
total as much as 15,000,000
bushels.

Closing out of spreads between
Chicago and Winnipeg with the
buying being done here counted
also as a price uplifting factor in
Chicago as the day drew to a
close.

Corn and oats rallied with
wheat and as a result of news that
contrary to earlier despatches the
Argentine crop outlook was still
adverse no moisture having been
supplied except light showers.

Packers selling weakened the
provision market despite higher
quotations on hogs.

TO ORGANIZE D. OF V. AMONG LADIES HERE

A tent of the Daughters of Veterans may be organized in this city. Efforts of Miss Lotta M. Cawrey, state president of the organization, are successful. Miss Cawrey came to the city Friday and began work toward an organization. There are now about forty tents of Daughters of Veterans in Illinois with a total membership of more than 2,700.

The Daughters of Veterans had its origin in 1885 at the suggestion of Major William McKinley, the martyred president. Its motto is "The flag our fathers saved." Its principles are along patriotic lines, as are also its activities. Its membership consists of daughters, granddaughters and great granddaughters of veterans of the Civil war.

It is probable that a meeting of the ladies in this city who are eligible to membership will be held some time next week. Miss Cawrey will return to her home in Peoria for Sunday, but will resume work here in a few days.

ASK INJUNCTION TO PREVENT BALL GAMES

Owners of Residence Near Indies' Park Would Stop 1923 Baseball Games—Complain of Noise, Dust, Profanity and Trespass.

An injunction that would effectively stop the use of the Rook property on the South Main street road as a baseball park is being sought in the Morgan county circuit court by Nettie B. Megginson, Anna M. Self, Ida C. Crawford and Frank Crow, who own residence property immediately north of the entrance of the park.

It is charged in the bill of complaint filed with the circuit clerk Friday, that the playing of baseball games last season, the assembly of large crowds, etc., disturbed the peace of the occupants of the dwelling. It is maintained that players and witnesses of the games trespassed on the property of the complainants, and that loud talking and use of profane language were frequent in the park.

Complaint is also made of the huge clouds of dust raised by autos and other vehicles passing along the driveway to the grandstand. The petition of the complainants is that Frank Smith, manager of the Indies' Guy Rook, the owner of the park, or any of their agents, servants, employees, etc., be restrained from using the park as a baseball ground during the season of 1923. The complainants would stop all games there and prevent anyone whatsoever from playing baseball on the land.

FORMER INSPECTOR AT LOCAL MILLS IS DEAD

A. C. Scarlett Dies Suddenly at Home in St. Louis—Was Government Inspector of Wool Here During World War, and Also Gave Lectures.

A. C. Scarlett dies suddenly at home in St. Louis. Was government inspector of wool here during world war, and also gave lectures.

Word has been received here of the death of A. C. Scarlett of St. Louis, who resided in this city during the world war. Mr. Scarlett was a government inspector of wool at the mills of J. Capps & Sons, while that firm was engaged in government contract work. While a resident here, he gave several stereopticon lectures on the Philippine Islands. Mr. Scarlett was a veteran of the Spanish war and saw service in the South Pacific.

The death of the former inspector occurred at his home in St. Louis very suddenly, following his return from a business trip to Providence, R. I. He was taken ill while in the east, but recovered sufficiently to return home. However, he died suddenly shortly after arriving in St. Louis. Mr. Scarlett is survived by his widow and two children, Alberta and Norvell.

GREAT SCOUT RALLY TO BE HELD IN CITY

Public Program Will Form Chief Feature of Anniversary Week—Campaigning for New Scouts Here Hindered by Lack of Leaders.

Plans for a mammoth rally of Boy Scouts of Jacksonville, to be held during the Scout anniversary week, Feb. 8 to 15, were put in shape last night at a meeting of Scout masters at the Peacock Inn. The program will be open to the public and will probably be held in the high school auditorium, the tentative date being Friday evening, Feb. 9.

The speaker of the evening who will be a local man, will deliver an address on the "Benefits and Future of Scouting in America." The name of the speaker will be announced later. Another feature of the program will be the roll call of local Scout troops, which will be answered with Scout songs and yells. The troops will then be assigned to various demonstrations of the activities of Scouting, as follows:

1. Pyramid Drill.
2. First Aid.
3. Necktie Drill.
4. Signaling, by means of semaphore, wigwag and flash light.
5. Typical Scout Game.
6. Field Drill.
7. Competitive; obtaining fire by friction.
8. Dressing and Undressing Race.

The committee in charge of arrangements for the rally program consists of Harry Walker, Ben Roodhouse and Mr. Alexander. Mr. Walker will have charge of the ushers. J. L. Horen will announce the numbers and preside as chairman.

On Sunday, Feb. 11, the ministers of the city will be asked to explain the principles and aims of Scouting during their service. The various Scout troops will attend their respective churches in a body.

Jacksonville Scouts are eager to do their part in the national movement to secure 100,000 new Scouts during anniversary week. However, the campaign in this city is hampered by lack of scout leaders, men who could give a portion of time to this work. Scores of prospective scouts are on the waiting list, and would gladly join if leaders could be found for them. Surely there are at least a half dozen men in this city of 15,000 people who could find leisure to devote part of their time to this work which means so much to boys and boy life.

RETURNS FROM CHICAGO MEETING

Dr. J. R. Harker of the Woman's college returned yesterday from Chicago where he attended the council of the boards of benevolences of the Methodist Episcopal church. The sessions were held at the Hotel Lexington the first four days of the week. The council arranged a program for the benevolent offering for the church for the year 1924-25, to follow the present Centenary offering program which closes in 1923.

It was decided at this conference to ask the church for only one year's offering at a time and it was decided to ask the church to give a total of \$15,500,000 for 1924-25, this amount to include the offerings to all the boards of the church. A careful survey of the needs of all the boards showed that they should have \$28,000,000 for the year but it was decided that this amount was too large so the figure was set at eighteen and a half million.
